

## General Climate Change Research Links: Global Classrooms: London Climate Change Conference

---

### One World - Climate Change

<http://uk.oneworld.net/guides/climatechange/impact>

Information about 40 countries that are at risk as result of climate change.

### One World - Climate Change Guide

<http://uk.oneworld.net/guides/climatechange>

An overview of climate change and the MDGs, and an insight into the relationship between rich and poor countries and climate change. Useful overview of UN actions and proposed solutions.

### UN resources on Climate Change Bulding Blocks:

#### Mitigation of climate change:

<http://www.un.org/wcm/content/site/climatechange/pages/gateway/themes/mitigation>

#### Adaptation of Climate Change:

<http://www.un.org/wcm/content/site/climatechange/pages/gateway/themes/adaptation>

#### Climate Change technology:

<http://www.un.org/wcm/content/site/climatechange/pages/gateway/themes/technology>

#### Climate Change financing:

<http://www.un.org/wcm/content/site/climatechange/pages/gateway/themes/financing>

#### Good background:

<http://www.un.org/wcm/content/site/climatechange/pages/gateway/the-negotiations/the-un-climate-change-convention-and-the-kyoto-protocol>

### Global Issues - Climate change and global warming

<http://www.globalissues.org/issue/178/climate-change-and-global-warming>

Detailed explanations of all aspects of climate change, including countries that have denied the impact of climate change and an overview of past UN action.

### Climate Change: latest news and comment

<http://uk.oneworld.net/section/uk/climatechange>

Selected climate change news and comment from around the world

### The Carbon Trust

<http://www.carbontrust.co.uk/climatechange>

Explains the issues and opportunities surrounding climate change and carbon reduction, developing low carbon strategies that engage government and business. Includes national and international responses/policy.

### Department of Energy and Climate Change

<http://www.defra.gov.uk/environment/climatechange/index.htm>

Resources accessed through the DEFRA website. Information about the causes and consequences of climate change and detail about action taken in the UK.

### Journey to Planet Earth

<http://www.pbs.org/journeytoplanetearth/education/programs.html>

Journey to Planet Earth introduces students to some of the most important environmental issues of the 21st century through thought-provoking coverage.

### Mongabay - Greenpeace

[www.mongabay.com](http://www.mongabay.com)

Mongabay.com seeks to raise interest in and appreciation of wild lands and wildlife, while examining the impact of emerging trends in climate, technology, economics, and finance on conservation and development.

**Greenpeace international**

<http://www.greenpeace.org/international/>

Information about the impact of climate change around the world. Links to individual countries. Campaigns about climate change and proposed actions by Greenpeace.

**Friends of the Earth**

<http://www.foe.co.uk/campaigns/climate/index.html>

Information about climate change and an explanation of international treaties and agreements.:

**United Nations Environment Programme**

<http://www.unep.org/>

The United Nations Environment Programme (UNEP) is the voice for the environment in the United Nations system. UNEP is the designated authority of the United Nations system in environmental issues at the global and regional level. Its mandate is to coordinate the development of environmental policy consensus by keeping the global environment under review and bringing emerging issues to the attention of governments and the international community for action.

**Human Development Report 2007 - climate change**

<http://hdr.undp.org/en/reports/global/hdr2007-2008/>

The Human Development Report 2007/2008 shows that climate change is not just a future scenario. Increased exposure to droughts, floods and storms is already destroying opportunity and reinforcing inequality. Information about countries affected and data.

**COP15- Website for the UN Climate Change Conference - December 2009**

<http://en.cop15.dk/>

Information about the conference, the delegates, the issues.

**UN Data and statistics**

<http://data.un.org/Data.aspx?d=MDG&f=seriesRowID%3A749>

Access to yearly CO2 emissions by country.

**UN Framework Convention on Climate Change**

<http://unfccc.int>

Information about all elements of international action on climate change, including up to date negotiations leading to the COP15.

**The Kyoto Protocol**

[http://unfccc.int/kyoto\\_protocol/items/2830.php](http://unfccc.int/kyoto_protocol/items/2830.php)

Information about the scope of this important international agreement. Links to every country that has signed and ratified the Kyoto Protocol.

**Intergovernmental Panel on Climate Change**

<http://www.ipcc.ch/>

The IPCC assesses the scientific, technical and socio-economic information relevant for the understanding of the risk of human-induced climate change.

**Commission on Sustainable Development**

<http://www.un.org/esa/sustdev/index.html>

Contains information and international action on all areas of the sustainable development agenda.

**UN COP17 Conference Durban:**

<http://www.cop17-cmp7durban.com/>
